

PRODUCT SPECIFICATION GUIDE

Low Maintenance and Barefoot Friendly

- EZ Dock polyethylene docks are durable and slip resistant
- Won't splinter or rot, never needs painting
- Cleans easily with soap and water

Adaptable Design

- Unique design delivers outstanding load capacity, functionality, and safety
- Variety of dock sections, boat/PWC lifts, and launches for kayaks
- Easily customizable design to make your perfect waterfront retreat

Flexible Flotation Technology

- Flotation chambers constructed for optimal strength and structural integrity. Concave pylon creates suction between the recess and the water
- Designed to provide additional stability on the water
- Dock sections adapt easily to changing water conditions and levels

Innovative Coupling

- The Dog Bone, made of recycled materials
- Nuts and bolts made of heavy duty, rust resistant composite
- Strength and durability even in the harshest weather conditions

American Made

- Proudly for 30 years

For questions about features, operation/performance, parts, accessories, or installation, call your local EZ Dock dealer.

DOCK SECTIONS

EZ Dock's polyethylene dock sections offer unmatched performance when it comes to modular docking solutions. Our revolutionary design is durable, slip-resistant, and low maintenance to help ensure an enjoyable time on the water. Each dock and port section includes a decking surface and float structure in a single, integrated unit. Our proprietary flotation chamber and pylon design provides enhanced buoyancy and stability to reduce movement even in rough water and stormy conditions. Constructed with extra-heavy and extra-thick walls for optimal strength. No frame or expensive decking required.

- **100% virgin linear low-density polyethylene (LLDPE)**
- **UV Ray resistant**
- **Slip-resistant pattern**
- **Unique pylon (chamber) design grabs the water like an upside down cup**
- **Rotationally molded, to allow no seams or connection points**
- **62.5lbs. (28.3kg) per square foot, including dead load, standard**
- **30lbs. (13.6kg) per square foot, including dead load, low profile**

PERSONAL WATER CRAFT PORTS

EZ Ports feature a raised bow stop that helps prevent overshooting the port, with no winching, cranking, pumping, or hoisting needed. All EZ Ports can be linked together and easily adapted to other floating and fixed docks using our revolutionary Dog Bone coupler system with EZ Dock connectors. The same proprietary flotation chamber and pylon design provides enhanced buoyancy and stability. EZ Port also provides plenty of space on the front and either side of the port to allow PWC users to find their footing comfortably. EZ Port PWC lifts move with changing water levels, protecting personal watercraft from waves, wind, and the damage they can cause. Our personal watercraft ports are also covered by an industry-leading 8-year warranty. Low maintenance and barefoot friendly, EZ Dock's polyethylene ports are durable and slip resistant. They won't splinter or rot, and never need painting. They are easy to clean with a pressure washer or EPA-approved cleaning solutions.

EZ PORT MAX INLINE

The modular, adjustable, and expandable EZ Port MAX PWC port system is built to accommodate multiple PWCs of different shapes. The EZ Port MAX is one of the most flexible options available and can be customized to maximize slip spaces with tandem inlines that help you accommodate more PWCs per slip. Configure the design that best suits your waterfront and adjust it whenever your needs change.

OPTIMUS BOATPORT®

Features and Benefits:

• Easy Boat Access and Maintenance

With our Optimus Boat Port, maintaining your boat becomes hassle-free. Enjoy effortless access for regular maintenance, cleaning, and inspections, ensuring your vessel stays in top-notch condition.

• Reduce Anti-foul Paint Application

The Optimus Boat Port significantly decreases the need for frequent anti-foul paint re-application; extending your boat's lifespan and preserving its value and saving you time and money in the long run.

• Versatile Boat Compatibility

Our boat port is designed to accommodate various boats up to 7,000lbs (3175kg) in wet weight and ranging from 16' (4.87m) to 24' (7.31m) in length, ensuring a perfect fit for your watercraft.

• Effortless Entry and Exit

Enjoy a simple and easy low-angle entry and exit with our Boat Port EZ Dock, making boating experiences smoother and more enjoyable.

OPTIMUS BOATPORT® CUSTOMIZED OPTIONS

16'

• V hull type boats up to 5,500 lbs. (2,495 kg) in wet weight

• Up to 16 feet (4.16m) in length

Configuration includes:

- 1- Entry Section Kit (BP208120ENT)
- 1- Extension Section Kit (BP208120EXT)
- Available in Grey and Beige

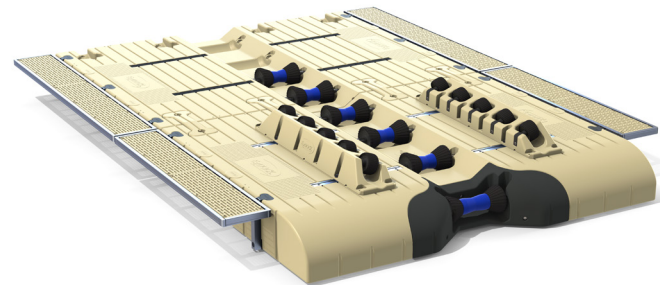

16' with Side Extensions

• V hull type boats up to 5,500 lbs. (2,495 kg) in wet weight

• Up to 16 feet (4.16m) in length

Configuration includes:

- 1- Entry Section Kit (BP208120ENT)
- 1- Extension Section Kit (BP208120EXT)
- 2- 6' (1.83m) BoatPort Walkways (208121)
- 2- 8' (2.43m) BoatPort Walkways (208123)
- Available in Grey and Beige

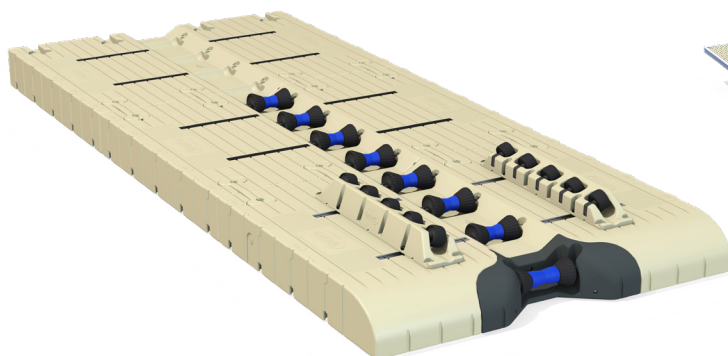

24'

• V hull type boats up to 7,000 lbs. (3,175 kg) in wet weight

• 16 to 24 feet (4.16m to 7.3m) in length

Configuration includes:

- 1- Entry Section Kit (BP208120ENT)
- 2- Extension Section Kit (BP208120EXT)
- Available in Grey and Beige

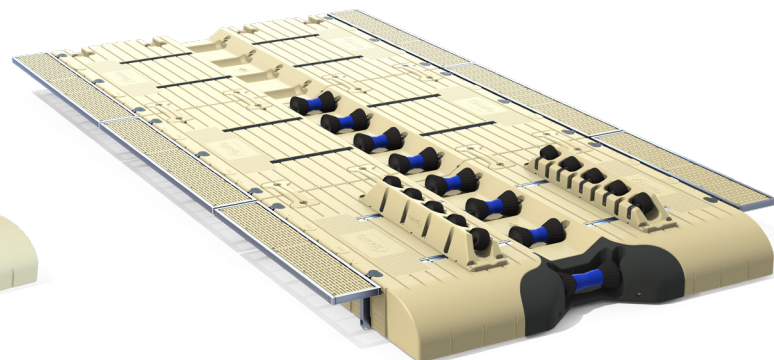

24' with Side Extensions

• V hull type boats up to 7,000 lbs. (3,175 kg) in wet weight

• 16 to 24 feet (4.16m to 7.3m) in length

Configuration includes:

- 1- Entry Section Kit (BP208120ENT)
- 2- Extension Section Kit (BP208120EXT)
- 2- 6' (1.83m) BoatPort Walkways (208121)
- 4- 8' (2.43m) BoatPort Walkways (208123)
- Available in Grey and Beige

- Available in Grey and Beige

The EZ BoatPort is a simple and stable drive-on, drive-off method of docking for boats in a wide range of sizes up to 5,000 lbs.

- Configurations to fit multiple boat shapes and sizes
- Works with existing floating or fixed docks
- Can be used in as little as 2ft of water without float tanks
- No winching, cranking, or hoisting
- Two skid bunk options to fit a variety of hull shapes and sizes
- Up to three additional keel rollers for longer boats
- Optional supplemental flotation kit for added buoyancy
- Optional side extensions for additional walk-around room

AEGIS BOAT LIFT

The Aegis boat lift promotes fast and convenient access to your boat and keeps it looking like new.

- Flotation capacity of up to 7,000 lbs. (3175kg) in weight and 28 feet (8.53m) in length.
- Fully adjustable polyethylene bunks configure to your boat, with the ability to customize as needed.
- Fits a variety of hull configurations including V-Hull, stepped hull, pontoon, tritoon, wake boats, and catamarans.
- A 110v air assist pump available with either a single or dual valve unit.
- Lift is compatible with EZ Dock products and traditional dock systems.
- Precision-molded, Linear Low-Density Polyethylene (LLDPE) lift tanks.
- Resistant to the worst weather conditions, and low water damage.
- Keeps the boat out of the water and free from marine growth on outdrives and the hull of your boat.
- Hot-dipped, galvanized steel and corrosion-resistant frame and hardware.
- Features premium low-friction and high strength, ultra-high molecular weight (UHMW), polyethylene bearing surfaces.

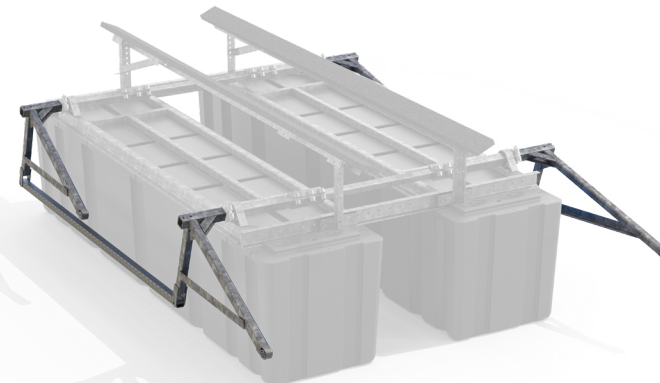

STEP 1 CHOOSE A FRAME OPTION THAT FITS YOUR NEEDS

- Both 4' and 5' arms are used for all dock types.
- 5' arms are useful to fine tune the distance of the bow of the boat to the front of the slip with EZ Dock coupler pockets.
- Arm length does not affect the boat height out of water.

AG7000	4' (1.2m) BoatLift Frame Kit 4' (1.2m) Arm, Pitmans down to include the universal dock connector	
AG7001	4' (1.2m) BoatLift Frame Kit 4' (1.2m) Arm, Pitmans up to include the universal dock connector	
AG7002	5' (1.5m) BoatLift Frame Kit 5' (1.5m) Arm, Pitmans down to include the universal dock connector	
AG7003	5' (1.5m) BoatLift Frame Kit 5' (1.5m) Arm, Pitmans up to include the universal dock connector	

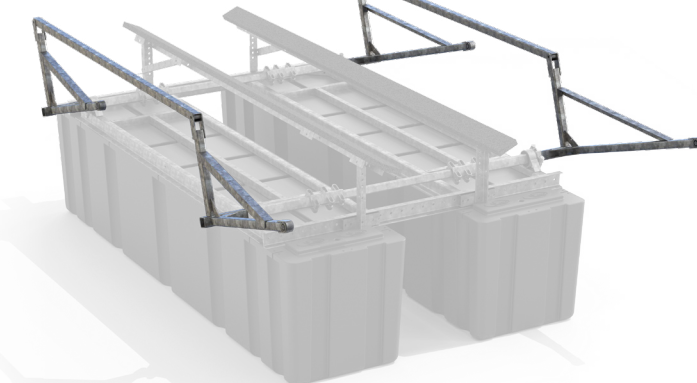

Pitman Arms are the shafts that translates rotary or angular movement into linear movement, or vice versa. Pitmans up vs. pitmans down has everything to do with the beam, overall width, of the particular watercraft you are lifting and where the beam is located on that watercraft.

Pitman Arms Down

- For use with Pontoon and Tritoon Boats with a beam of 8' 6" (2.64m) or more.*
- Recommended for Deck Boats.
- Only width restriction is the distance between the dock brackets which are attached to the dock.

Pitman Arms Up

- Arms act as a step to access the boat.
- Keeps steel out of water.
- Fit most, V-Hull boats, with a beam of 8' 6" (2.64m) or less.*

STEP 2 CHOOSE THE SLIP THAT THE FRAME WILL FIT INTO

Part #	Description	Notes
AG-KIT-10	10' (3m) Slip & Standard 10' (3m) Frame to Frame Floating boat slip	
AG-KIT-11	11' (3.3m) Slip & Standard 10' (3m) Frame to Frame Floating boat slip	
AG-KIT-12	12' (3.65m) Slip & Standard 10' (3m) Frame to Frame Floating boat slip	

*for use in a 10' (3m) slip

AEGIS BOAT LIFT

STEP 3 CHOOSE YOUR BOATS HULL SHAPE

- 12' pads will work the majority of the time across all boat types
- 14' pads are useful primarily for Pontoon & Tritoon boats over 24' to support the weight.
- 14' pads are also useful for inboard wake boats to get the bunks further back on the boat.

Part #	Description	Size	Notes
AGI12	Inboard/Wake Bunk Kit, 12' (3.65m) Pads		
AGI14	Inboard/Wake Bunk Kit, 14' (4.26m) Pads		
AGP12D	Pontoon Bunk Kit, 12' (3.65m) Pads, Pitmans down		
AGP12U	Pontoon Bunk Kit, 12' (3.65m) Pads, Pitmans up		
AGP14D	Pontoon Bunk Kit, 14' (4.26m) Pads, Pitmans down		
AGP14U	Pontoon Bunk Kit, 14' (4.26m) Pads, Pitmans up		
AGT12D	Tritoon Bunk Kit, 12' (3.65m) Pads, Pitmans down		
AGT12U	Tritoon Bunk Kit, 12' (3.65m) Pads, Pitmans up		
AGT14D	Tritoon Bunk Kit, 14' (4.26m) Pads, Pitmans down		
AGT14U	Tritoon Bunk Kit, 14' (4.26m) Pads, Pitmans up		
AGV12U	V Hull Bunk Kit 12' (3.65m) Pads		
AGV14U	V Hull Bunk Kit 14' (4.26m) Pads		

STEP 4 CHOOSE YOUR CONTROL UNIT

Part #	Description	Size	Notes
700010	110 Volt Single Valve Unit with Cover & Mounting Plate		
700020	110 Volt Dual Valve Unit with Cover & Mounting Plate		

STEP 5 FLOTATION TANKS

Part #	Description	Size	Notes
BL0007K2	2 Flotation Tanks		

THE COMPLETE AEGIS SET UP BELOW SHOW

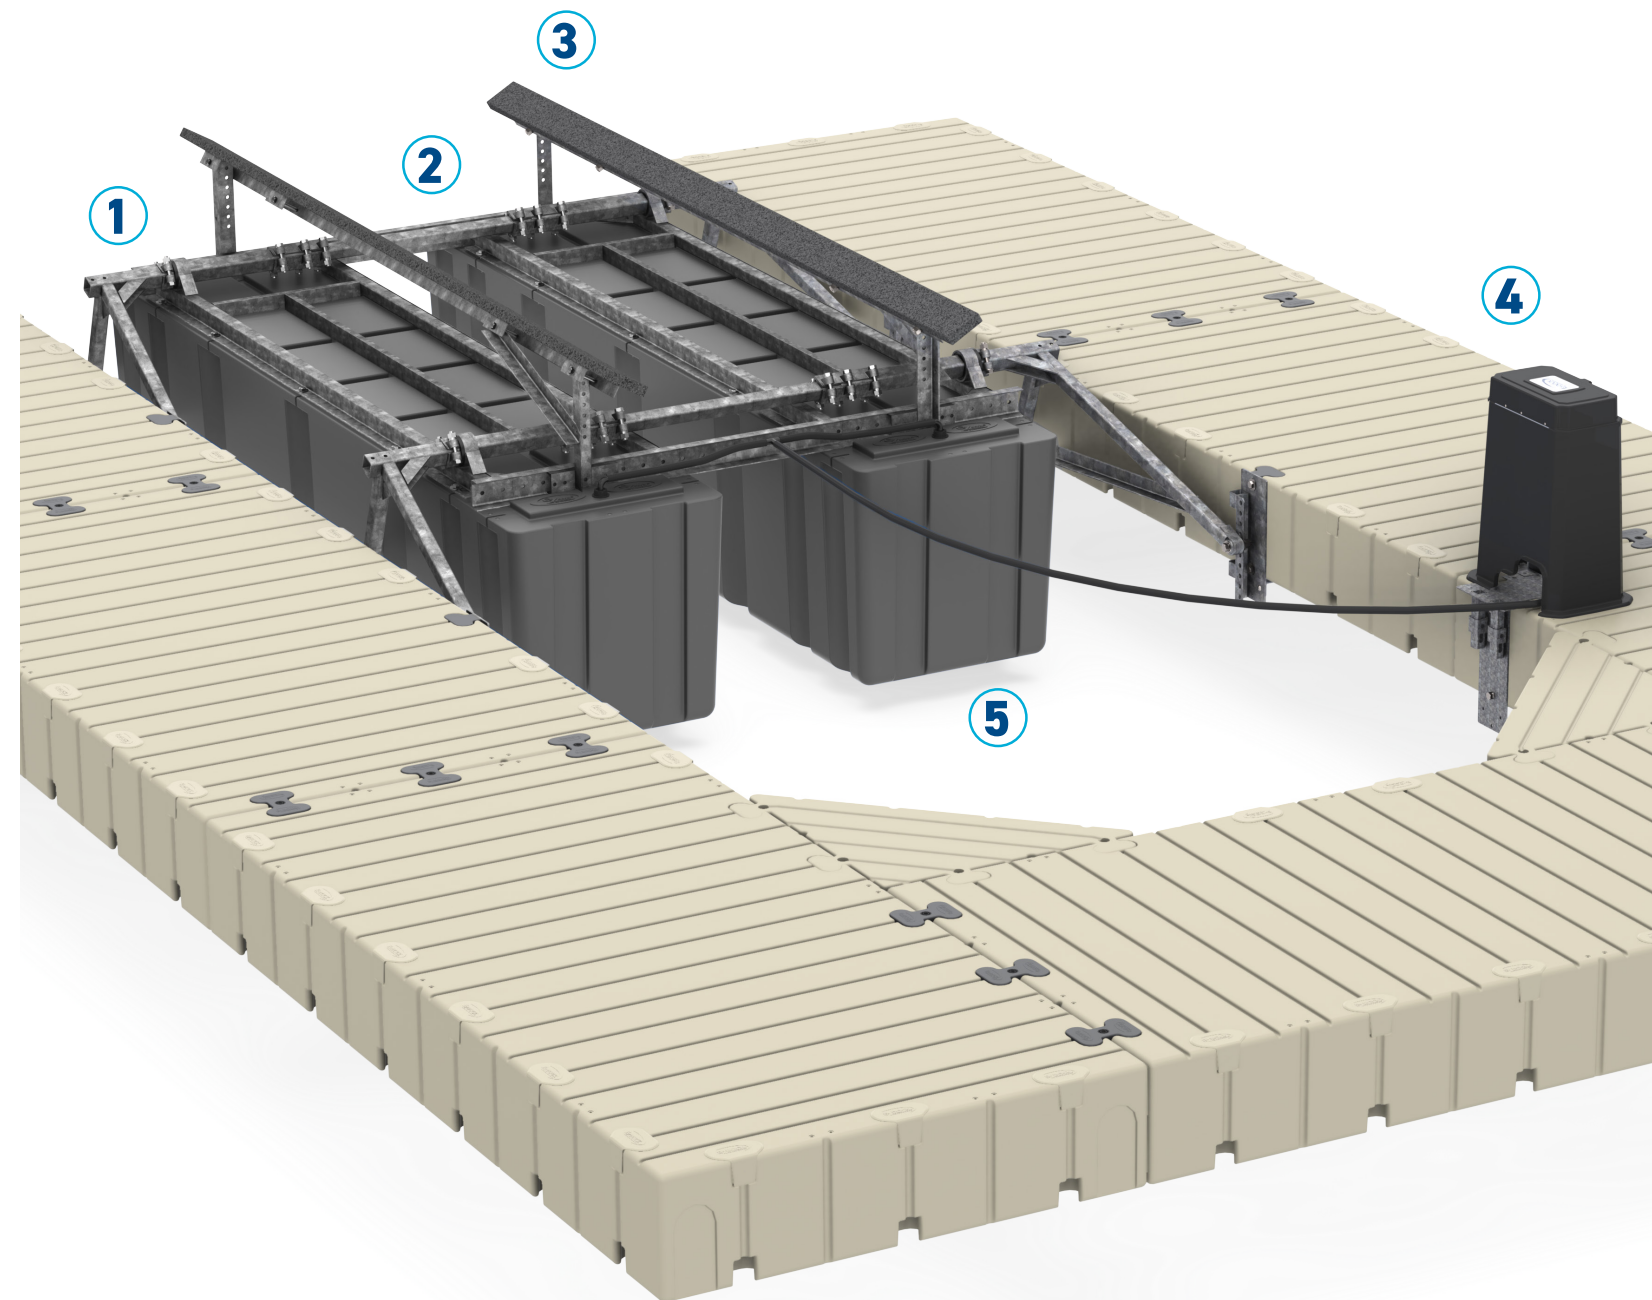

STEP 1 4' (1.2 meter) Pitman Arms Down, part # AG7000

STEP 2 10' (3 meter) Slip Width, AG-KIT-10

STEP 3 V-Hull Bunk Kit with 12' (3.6 meter) Pads, part # AGV12U

STEP 4 Standard 110v Pump, part # 700010

STEP 5 Flotation Tanks, part # BL000K2

POLY POST HANDRAILS

ALUMINUM RAILING

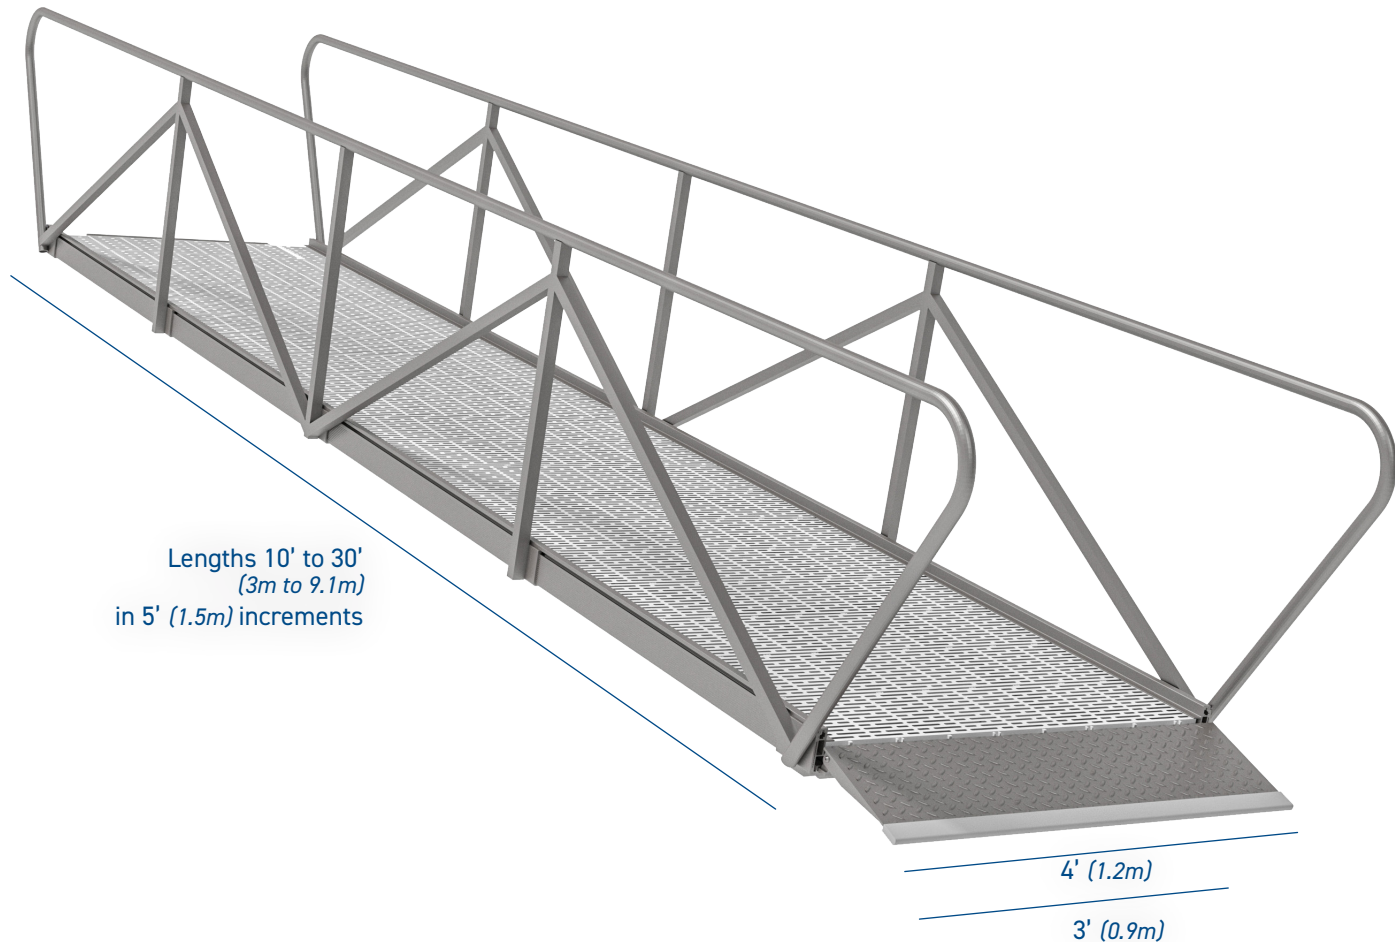

EZ Dock is pleased to announce the availability of our new G500 series gangways hinge kits and dock to shore transition ramps. All G500 gangway frames are made of lightweight aluminum materials that are carefully welded in the USA by skilled welders. G500 gangways weigh 25% less (approx.) than G400 series gangways. ADA compliant railings can be assembled at the job site (Mounting hardware is provided.)

Available in popular 36" (0.9m) and 48" (1.2m) widths and lengths ranging from 10' (3m) to 30' (9.1m) in 5' increments, the new gangways come with the buyer's choice of factory installed beige or grey ThruFlow decking to create a consistent look with other EZ Dock products.

ThruFlow panels are durable and maintenance free allowing you to spend more time enjoying your deck or dock, than working on it. They also feature a heat-resistant, non-slip surface for safety and comfort. This decking is covered by ThruFlow's Lifetime Limited Warranty. ThruFlow panels are revolutionary in their ability to allow light to pass through protecting the delicate aquatic life below. They also allow wind and water to safely pass through them, helping to prevent damage that may be incurred by high waves and wind.

Slip resistant aluminum decking with heat sink bottoms to draw heat away from the decking surface is also available as a decking option.

All decking panels are installed at the factory to provide a clean, flush appearance. All new decking must be installed to meet local, state, and federal building codes or other regulations that apply to these products at the installer's discretion and responsibility.
